

WRITTEN EDUCATION PLAN 2020-2021

Saskatchewan Home-Based Learning

Adapted from the document developed by the Home School Legal Defence Association of Canada and Saskatchewan Home Based Educators, in compliance with The Education Act 1995, The Home-based Education Program Regulations 2012, and the Saskatchewan Home-based Education: Policy and Procedures Manual 2016-17.

We will personally be directing the education of this child. Home-based learners should be able to enter or re-enter federal, public, or independent schools with a minimum of difficulty. Each written education plan should not be inconsistent with the *Goals of Education for Saskatchewan*, or inappropriate for the age and ability of the home-based learner in the program. We will assess and record the educational progress of this child by the means of a Portfolio of Work which we will supply to our registering authority at the end of this school year. We will maintain a portfolio of work for two calendar years.

LIST THE REASON(S) FOR AND THE PHILOSOPHICAL APPROACH TO YOUR HOME-BASED LEARNING PROGRAM:

AREAS OF STUDY WITH BROAD ANNUAL GOALS

The Written Education Plan is focused on the outcomes of the home-based learner and includes a minimum of three broad annual goals in the four main areas of study: English Language Arts, Mathematics, Science and Social Studies. The additional areas of study may be added such as Arts Education, Physical Education, Career Education and Health. The goals are not meant to be a comprehensive listing of learning for the child since home-based learning, by its very nature, is less structured and more experiential than instruction normally provided in a school. The three Broad Annual Goals must be submitted for each individual child.

*If there is more than one child included in this Written Education Plan, please fill out this section of the plan for each individual child.
